PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science & Engineering graduate from Independent University, Bangladesh, with hands-on experience in full-stack web development, machine learning, and mobile-first application design. Proven ability to deliver end-to-end software solutions through 10+ academic and personal projects. Currently contributing to a production-level service marketplace platform. Eager to apply technical skills and problem-solving ability in a challenging software engineering role.

EDUCATION

B.Sc. in Computer Science & Engineering
Independent University, Bangladesh (IUB) | 2022 – 2026

Higher Secondary Certificate (HSC) — Science
Dhaka Imperial College | 2017 – 2018

Secondary School Certificate (SSC) — Science
Bholabo Shaheed Smrity High School | 2015 – 2016

WORK EXPERIENCE

Web Developer (Project-based)

FNF Planate Company | *(internship)*

- Developing Servico — a full-featured service marketplace platform inspired by [Sheba.xyz](https://sheba.xyz)
- Building and integrating front-end components using React.js and for backend using Django
- Collaborating with cross-functional team members to deliver features on schedule
- Participating in code reviews, testing, and deployment workflows

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML, CSS, PHP
Web Dev	React.js, Node.js, Express.js, REST APIs
Tools	Git, GitHub, VS Code
Databases	MySQL, MongoDB, PostgreSQL

ML / AI	Polynomial Regression, Deep Learning (CNN), Data Preprocessing
Soft Skills	Problem Solving, Critical Thinking, Effective Communication, Public Relations, Teamwork
Languages	English (Fluent), Bengali (Native)

KEY PROJECTS

FastAid — Emergency Medical Assistance System — *Web App (Bootstrap, PHP, MySQL, AJAX)*

A web platform designed to connect patients with nearby medical help rapidly during emergencies, featuring real-time location services and contact dispatch.

<https://github.com/HafijurRahmanBhuiyan/fast-aid>

Deep Learning Classification: Lipoma vs. WDLPS — *Python, CNN, Deep Learning*

Research project applying convolutional neural network models to classify soft-tissue tumors (Lipoma and Well-Differentiated Liposarcoma) from medical imaging data to assist clinical diagnosis.

BTC Price Prediction — Polynomial Regression — *Python, Machine Learning*

Applied polynomial regression to historical Bitcoin price data to model and predict future price trends, demonstrating applied ML techniques for financial forecasting.

ShopEase — HCI-Based E-Commerce Website — *HTML, CSS, JavaScript*

Designed and developed a user-centric e-commerce platform for Bangladesh, applying Human-Computer Interaction (HCI) principles to optimize the shopping experience and accessibility.

<https://github.com/HafijurRahmanBhuiyan/ShopEase-HCI>

Job Tracker — *HTML, CSS, JavaScript*

A personal productivity tool to manage and track job applications, statuses, deadlines, and follow-ups in one organized dashboard.

<https://github.com/HafijurRahmanBhuiyan/job-tracker>

DengueCare — Health Awareness Website — *Web app (Bootstrap, SCSS, CSS, PHP, MySQL)*

A public health information platform raising awareness about dengue fever, featuring symptom checks, prevention tips, and nearest hospital locators.

https://github.com/HafijurRahmanBhuiyan/DengueCare_Web

English Janala — Language Learning App — *HTML, CSS, JavaScript*

An interactive English-learning web application featuring vocabulary exercises, vocabulary details, and pronunciation sounds at Bangladeshi learners.

<https://github.com/HafijurRahmanBhuiyan/english-janala>

Payoo — Payment Website — *HTML, CSS, JavaScript*

A simplified online payment interface prototype with clean UX for digital transactions.

<https://github.com/HafijurRahmanBhuiyan/payoo-website>

ADDITIONAL INFORMATION

- Actively contributing to open-source projects on GitHub with 10+ repositories
- Strong interest in AI/ML research, particularly in medical imaging and financial modeling
- Post-Harvest Loss Reduction research project: Smart Packaging system for Tomatoes
- Available for full-time roles in software engineering and web development.
